## INDEX TO VOLUME XCV.

ABDOMEN, contusions of the, 392.  
Abdominal wall, removal of needle from the, 229.  
Abortionist sentenced, an, 596.  
Abortions, multiple spontaneous, 199.  
Acne rosacea, a contribution to the therapeutics of, 671.  
Adams, Z. B. Case of rupture of the symphysis pubis during labor, 4; unfortunate result of vaccination, 722.  
After-pains, use of quinine for, 81.  
Alr-passages, case of foreign body in, 463; a match in the, 391.  
Albuminuria, treatment of, 390.  
Alcohol in therapeutics, 314.  
Allen, Harrison B. Abstract of a paper on the anatomy and physiology of joints, 335.  
Alopecia areata, 702.  
American Gynaecological Society, annual meeting of the, 392.  
American Medical Association, 20; letter from Dr. Bowditch, 245; the Congress and the, 389.  
American medical journalism, 472.  
American Public Health Association, 389; fourth annual meeting of, 446.  
American Social Science Association, 288; eleventh general meeting of, 422.  
Amory, Robert. Recent progress in therapeutics, 344, 378.  
Amputation for injury to foot, 241.  
Amyl-nitrite, its physiological action, 378.  
Anæmia, progressive pernicious, a case of, 1; diagnosis of, 467.  
Anatomy, recent progress in, 286, 321; methods, 286.  
Aneurism, popliteal, 525; case of aortic, unsuccessfuly treated by electrolysis, 579; popliteal, cured by the application of Esmarch's bandage, 761.  
Antiseptic gauze dressing, 559.  
Antiseptic method, the, 631.  
Anus, imperforate, cases of, 532.  
Apex, chronic pneumonia of, in children, 169.  
Arsenic, the use and value of, in the treatment of diseases of the skin, 702.  
Atlas, subluxation of the, 79.  
Atresia ani vaginalis, case of, 283.  
Baltimore, letter from, 716.  
Berlin, letter from, 53, 209, 509.  
Bilirubin in infants, 465.  
Birth of child weighing twenty pounds two ounces, 110.  
Bladder, two cases of rupture of the, 77; urinary, gall-stones in the, 496; stones in the, frequency of, in Finland, 513; the male, injecting without a catheter, 643.  
Blake, John G. Gastric ulcer, 457; a case of intestinal obstruction of eighteen weeks' duration, with remarks, 601.  
Blodgett, Albert N. The metrical system in prescriptions, 726.  
Books and pamphlets reviewed:—  
Atlas of Skin Diseases, 41; Attfield's Chemistry, 613; Bartholow's Materia Medica and Therapeutics, 650; Beard's Hay Fever, 236; Bristow's Theory and Practice, 674; Carpenter's Physiology, 614; Carter on Diseases of the Eye, 468; Century of American Medicine, A, 614; Deidré, 710; Diseases of the Rectum, 677; Diseases of the Urinary Organs, 529; Dowell on Yellow Fever, 615; Dwight on the Anatomy of the Head, 441; Fagge's Catalogue of Diseases of the Skin, 652; Farmer's Veterinary Adviser, 386; Fever Lectures on, 200; Fox's Epitome of Skin Diseases, 652; Frey's Compendium of Histology, 558; Gore's West African Campaign, 297; Gray on Darwin, 614; Hours with John Darby, 678; Hutchinson's Illustrations, 388; Illustrations of Clinical Surgery, 736; Materia Medica and Therapeutics, 286; Medical Register for New England, 678; Micro-Photographs in Histology, 38, 446; New Works on Obstetrics, 468; New York State Lunatic Asylum, 443; People without Consumption, A, 445; Roberts' Theory and Practice, 446; Pathology and Morbid Anatomy, 76; Sayre on Orthopedic Surgery, 290; Sewall's Dental Anatomy and Surgery, 298; Social Science, the Journal of, 11; Syphilis, the Transmission of, 140; Transactions of the Pathological Society of London, 40; Transactions of the American Public Health Association, 766; Urinary Diseases, 553; Woodhill on the Non-Emetic Use of Ipecacuanha, 675; Wyman's Autumnal Catarrh, 233; Ziemsen's Cyclopedia (Vol. xi.), 232; (Vol. vi.), 676.  
Boston City Hospital, 420, 478; medical cases, 146, 207, 593; surgical cases, 240, 391, 740; surgical clinic, 52.  
Boston Dispensary, the, 504.  
Boston Lying-in Hospital, 565.  
Boston Society for Medical Improvement, proceedings of, 532, 706.  
Boston Society for Medical Observation, proceedings of the, 18, 170, 228, 470, 617.  
Bowditch, Henry I. Abstract of the address on public hygiene at Philadelphia, 907.  
Bowditch, H. P. Functions of the cortex cerebri, 71, 103; force of ciliary motion, 159.  
Bradford, E. H. A case of progressive pernicious anæmia, I: idiopathic glossitis, 490.  
Brain, micro-microscopical sections of the, 175.  
Breast, sarcoma of the, 271; fibro-cystic tumor of, 418.  
Breast milk, the quantity consumed by sucklings, 136.  
British Medical Association, the annual meeting of the, 301.  
Bromidrosis pedum, 669.  
Burns, 181.  
Bush, J. Foster. Two cases of stricture of the urethra, 637.  
Byrd, William A. Gangrene and sloughing of the scrotum and perineum, 549.  
Cadmium, bromides of, poisoning by, 434.  
Cancer of the cervix uteri, 227; inoculation of, 404; of oesophagus, 620.  
Carbolic acid, subcutaneous injection of, in phthisis and tuberculosis, 412.  
Carr's splint, and Colles's fracture, 187.  
Caswell, Edward T. Fifteen cases of stricture of the urethra, 631.  
Cataract, capsular, formation of, 554.  
Catarrh, origin of vesical, 468; purulent, of the ear, 129.  
Caustics, 199.  
Cervix uteri, fibroid of posterior lip of, 207; incision and division, 226; cancer of the, 227.  
Chadwick, James R. The medical libraries of Boston, 543.  
Channing, Dr. the late, 237.  
Cheney, E. An unusual recto-vaginal fistula, 606.  
Chloroforin, effects on animal temperature, 279.  
Cholera infantum, some points in the pathology and treatment of, 91.  
Cholera, the diffusion of, 268.  
Cleistrix, mammary, pigmentary deposit in, 590.  
Ciliary motion, force of, 159.  
Ciliary processes during accommodation, the, 524.  
City Hospital, sanitary condition of, 19.

## Index to Volume XCV.

Colles's fracture and Dr. Carr's splint, 187.  
 Comparative mortality-rates, 27, 60, 90, 122, 154, 186,  
 216, 277, 305, 328, 370, 399, 428, 456, 484, 512,  
 542, 572, 606, 630, 660, 688, 718, 746, 774.  
 Conjunctiva, terminal-corpuscles of, 522.  
 Corned beef, pressed, 19.  
 Coronary system, the reform of the, 767.  
 Coroners, 456, 622.  
 Corpuscula, cornelia, relation of nerves to, 524.  
 Corpus luteum, true, medico-legal value of the, 178.  
 Corixia cerebri, functions of the, 71, 108.  
 Cremation of Baron Palm, the, 711; sanitary aspect of,  
 715.  
 Curtis, Thomas B. Recent progress in genito-urinary  
 surgery, 640.  
 Cutler, Elbridge G. Ulcer of the frenum lingue in  
 whooping-cough, 724.  
 Cutler, Ephraim. The use of aromatic sulphuric  
 acid in necrosis, 191.  
 Cysta, 225.  
 Dalton, Dr., letter from, 211.  
 Death-rates, the effect of migration upon, 256.  
 Derby, Haskett. Change in the numeration of spec-  
 tacle lenses, 432.  
 Dermatology, recent progress in, 669, 700.  
 Dermatoses, malarial, 639.  
 Diabetes, disease of the eye in, 566; relation of skin  
 diseases to, 670.  
 Diphtheritic larynx, 417; membrane supposed to be,  
 417; cases, 588.  
 Diphtheria, 108, 134; dissemination of, at funerals,  
 415; treatment of, 135; internal administration of  
 salicylic acid in, 135.  
 Disinfection and disinfectants, 257.  
 Dosage, on official, with some remarks on homeo-  
 pathic tinctures, 380.  
 Draper, F. W. Boston City Hospital medical cases,  
 146; recent progress in public hygiene, 253.  
 Dwight, Thomas. Recent progress in anatomy, 286,  
 221.  
 Dyspareunia, 197, 590.  
 Ear, purulent catarrh of the, 129.  
 Metropion, a case of, treated by transplantation of a  
 large flap without pedicle, 747.  
 Edes, R. T. Medical cases in Boston City Hospital  
 207.  
 Edinburgh, professional matters in, 568.  
 Elephantiasis of the nose, treatment by decortic-  
 ation, 672.  
 Ellis, Calvin. The curved line of pleuritic effusion,  
 639.  
 Embolism after thoracentesis, 413; probable sudden  
 death from, 586.  
 Emerson, Edward Waldo. Some points in the pa-  
 thology and treatment of cholera infantum, 91.  
 Empyema, resection of the rib in, 414.  
 English coroners, 622.  
 Epilepsy, farinaceous diet versus nitrogenous diet in,  
 346.  
 Epithelium, the pathology of, 669.  
 Erysipelas and the puerperal condition, 586.  
 Estlander, J. A. The frequency of stone in the blad-  
 der in Finland, 513; remarks on Dr. Woodward's  
 paper on typho-malarial fever, 515.  
 Ether, a case of hemorrhage and death following ad-  
 ministration of, 401.  
 Exhibits of the Medical Department U. S. A. at Phil-  
 adelphia, 145.  
 Exostoses in the external meatus, 606.  
 Eye, emmetropic, length of the, 524; disease of, in  
 diabetes, 566.  
 Face, lupus of, removal by knife, 740.  
 Fibroid, large uterine, attached to posterior lip, 587.  
 Filariose, an affection produced by a new kind of  
 cutaneous parasite, 702.  
 Fingers, supernumerary, 271.  
 Fiber case, the, 177; the inquest, 277.  
 Fistula, vesico-vaginal, 112; recto-vaginal, an unusual  
 608.  
 Fistulous opening, recovery after copious discharge  
 from, for five months, 411.  
 Fitz, R. H. Recent progress in pathology and patho-  
 logical anatomy, 464, 492.  
 Flint, Austin. Food in its relations to personal and  
 public health, 429; abstract of the address on med-  
 icine at Philadelphia, 318.

Florence, letter from, 25.  
 Fetus in fetu, monstrosity, 217.  
 Food in its relations to personal and public health, 429.  
 Fore-arm, new splint for, 679.  
 Fracture of the patella treated by Sanborn's method,  
 402.  
 Frenum lingue, ulcer of, in whooping-cough, 724.  
 Fuchsine not a poison, its uses, 378.  
 Gall-stones in the urinary bladder, 496.  
 Gangrene, pulmonary, thirty-two cases of, 485; of the  
 lung, treated with salicylic acid, 506.  
 Garvin, L. F. C. A case of sun-stroke, 252.  
 Gauze dressing, Lister's, 497.  
 Genito-urinary surgery, recent progress in, 640.  
 Glaucoma, treatment of, by physostigmine, 554.  
 Glossitis, idiopathic, 281, 490.  
 Gonorrhœa, treatment of, 647.  
 Green, J. Orme. Recent progress in, 581, 809.  
 Gums of a child, growth of a doubtful character upon,  
 617.

Hematocel, pelvic, and pelvic cellulitis, differential  
 diagnosis between, 227.  
 Hemorrhage, ante-partum internal, 567.  
 Hampden District, report for, 108.  
 Harrington, Thomas W. Remarks on thirty-two cases  
 of pulmonary gangrene, 485.  
 Hayden, D. H. Recent progress in the treatment of  
 children's diseases, 134, 164.  
 Headache, guarana in, 346.  
 Hernia, double inguinal, from external violence, 183;  
 strangulated, 240; irreducible, of the omentum,  
 679.  
 Holmes, Dr., letter from, 336.  
 Homans, John. A case of aortic aneurism treated by  
 electrolysis, failure, 579.  
 Housemaid's knee, large, excision, rapid recovery, 85.  
 Howe, Samuel. Three rare cases of uterine surgery  
 occurring in the practice of Dr. Freund, of Breslau,  
 219.  
 Hydrocoel of the neck, 293.  
 Hydrocephalus, 110.  
 Hydrochlorate of apomorphia, 348.  
 Hymen, unruptured, pregnancy with, 195.  
 Hypochondriasis, case of, 621.

Idiocy, the treatment of, 681.  
 Ilium, separation and expulsion of a large portion of  
 the, 763.  
 Insane in America, the treatment of, 268.  
 Intercostals, the action of the, 288.  
 International Medical Congress, 115, 268, 328; meet-  
 ing of the, 328, 348.  
 Intestinal obstruction, a case of eighteen weeks' du-  
 ration, 601, 617.  
 Intestine, large, stricture of, 176; ulceration of, com-  
 plicated with renal disease, 593.  
 Introductory addresses, 501.  
 Intussusception, 763.  
 Iritis, complications of, 553.  
 Iron as a reconstructing agent, 345.

Jackson, William Leavitt. Typhoid fever, 404.  
 Jaundice, choleate of soda in, 129.  
 Jaw, sarcoma of the, 182.  
 Jeffries, Dr. John, 155.  
 Joints, lymphatics of the, 290; the anatomy and phys-  
 iology of, abstract of a paper on, 329.

Kidney, primary carcinoma of the, in children, 137.  
 Kimball, Gilman. Extirpation of the uterus, 250.  
 Knight, F. I. Recent progress in the treatment of  
 thoracic diseases, 409, 436.

Labor, premature, 114.  
 Labyrinth, histological changes in, in certain infec-  
 tious diseases, 581.  
 Larynx, specimen of diphtheritic, 417; extirpation of  
 the, 762.  
 Leg, fibro-sarcoma of the, 708.  
 Leguminous substances, on the nutritive properties of,  
 and their value as food for the sick, 164.  
 Leprosy in Sicily, 672; aetiology and treatment of,  
 673.

Letter from Baltimore, 706; letter from Berlin, 53, 209,  
 509; letter from Florence, 25; letter from Lon-  
 don, 395, 568, 595; letter from New York, 58, 239.

627, 742, 770; letter from Philadelphia, 140, 278, 368, 685; letter from Portland, 188, 424; letter from Strasburg, 481; letter from Vienna, 479; letter from Washington, 243, 657.

Letter from Dr. Treadwell, 212.

Letter from Dr. Dalton, 211.

Letter from Dr. Holmes, 398.

Letter from the late Dr. Rush, 745.

Leucemia, glandular and splenic, a case of, 279.

Lip, cavernous angioma of, 506.

Lipoma, 507.

Lister's gauze dressing, 497.

Lithotomy, vaginal, 61.

Lithotomy, 111, 170.

London, letter from, 296, 568, 596.

Loring, E. G. The metric system as applied to the ophthalmoscope, 254.

Lumbrii discharged from the umbilicus, 495.

Lung, gangrene of, treated with salicylic acid, 595.

Lungs, fatal condition of the, in new-born children that lived and died after birth, 138.

Lupus, treatment of, 673; of face, removal by knife, 740.

Lyman, G. H. A case of lymphangitis and perimetritis, 247.

Lymphangitis and perimetritis, a case of, 247.

Maine Medical Association, 46.

Malaria dermatosis, 698.

Mania, ergotin in, 317.

Manubrium, the yellow spot at the end of, 611.

Marcy, Henry O. Fracture of the patella and treatment by a new method, 663.

Mariage of near kin, 225.

Martin, Henry A. Colles's fracture and Dr. Carr's splint, 187; uncomplicated backward dislocation of the head of the radius, 697.

Massachusetts General Hospital, 23, 85, 117, 271, 503.

Massachusetts Medical Society, district reports of, 49.

Massachusetts, registration report of, 230.

Masturbation in women, 18.

Mastoid process, perforation of, 612.

Mathewson, Arthur. A case of cerebral hemorrhage and death following the administration of ether, 401.

Medical chemistry and toxicology, abstract of the address on, at Philadelphia, 342.

Medical chemistry, recent progress in, 8, 35.

Medical congresses, 540.

Medical libraries of Boston, the, 543.

Medical men of the Revolution, the, 591.

Medical Notes, 23, 50, 84, 116, 145, 180, 205, 229, 269, 298, 362, 390, 419, 453, 474, 504, 536, 562, 592, 624, 656, 683, 712, 738, 768.

Medicine, abstract of the address on, at Philadelphia, by Austin Flint, 318.

Medicines, regulating the practice of, 144.

Medicines, domestic dosage of, 347.

Menstrual blood, rare form of, 198.

Menstrual function, complete absence of, 195.

Membrane supposed to be diphtheritic, 415.

Mercury, absence of, in the milk of nursing women, 379.

Metric system, the, as applied to the ophthalmoscope, 284.

Metric system, adoption in numeration of spectacle lenses, 432; in prescriptions, the, 726.

Miscellany, 28, 198, 278, 308, 370, 399, 428, 484, 572, 60, 630.

Monstrosity, 706; fetus in fetu, 217; double, 706.

Morland, William Wallace, M. D., 656.

Morphia, acetate of, poisoning by, 82.

Morphine, subcutaneous injection of, 560.

Morris, M. A. Fracture of patella treated by Sanborn's method, 402.

Musculo-spiral nerve, neuroma of, 507.

Myosis, spinal, 556.

Nasal medullary sarcoma, 709.

Near-sightedness, the origin and causes of, 719.

Necrosis, the use of aromatic sulphuric acid in, 191.

Nestle's food for babies, 551.

Neuroma of musculo-spiral nerve, 507.

New Hampshire Medical Society, the, 21.

New York, letter from, 88, 290, 627, 742, 770.

Newton, A. W. E., versus H. O. Houghton et al., judgment for the defendants, 362.

"Non me tangere," 508.

Norfolk District Medical Society, proceedings of, 679, 738, 763.

Nose, elephantiasis of the, and treatment by desiccation, 672.

Nurses for the sick, on the training of, 573.

Obstetrical Society of Boston, proceedings of, 196, 590.

Obstetrics and gynaecology, recent progress in, 196, 223.

(Esophagus, epithelial cast from the, 471; cancer of, 620).

Omentum, irreducible hernia of, 679.

Opium poisoning, 229; antidotes exposed, 500.

Ophthalmology, recent progress in, 523, 552.

Orbit, arteries of the, 289.

Osteomyelitis and periostitis, infective, 492.

Osteotomy, subcutaneous, 728.

Otology, recent progress in, 581, 609.

Otorrhoea, treatment of, 583, 609.

Ovariotomy, recovery, 495; vaginal, 516, 559; extirpation of the uterus in connection with, 250.

Ovary, the structure and development of the, 291.

Ovum, blighted, 198; aborted blighted, 619.

Packard, John H. On the training of nurses for the sick, 573.

Palate, cleft, operation for, 741; operation for, with the object of obtaining a clear speech without nasal tone, 732.

Palm, Baron, the cremation of, 711.

Pancreas, exsection of the, 731.

Panysis, post-diphtheritic, a case of, 34; of the posterior arytenoid muscle, 272; facial, and its causes, pain as a symptom in, 350.

Patella, fracture of the, treated by Sanborn's method, 402; fracture of, and treatment by a new method, 663.

Pathology and pathological anatomy, recent progress in, 464, 492.

Pemphigus, a contribution to the knowledge of, 671.

Pericardium, puncture of, 411, 440.

Perimetritis, and lymphangitis, a case of, 247.

Perineum, gangrene and sloughing of, 549.

Peritonitis, infective, 492.

Pessary, incarcerated, 193.

Pharyngitis, case of, complicated with otitis media, 292.

Philadelphia, letter from, 149, 278, 563, 685.

Phthisis, subcutaneous injection of carbolic acid in, 411; action of climates on the treatment of pulmonary, 437; syphilis, 440.

Physical exercise for the sick, 371.

Physiology, recent progress in, 71.

Pityriasis circinata, 670.

Plasma tubes of the skin, 659.

Plaster, a new adhesive, 379.

Pleural effusion, differential diagnosis by physical signs of different kinds of, 438.

Pleuritic effusion, the cured case of, 689.

Pleuritic exudations, operative treatment of, 405.

Pneumonia, chronic, of the apex in children, 169.

Poisoning by bromide of cadmium, 484.

Pomeroy case, the end of, 298.

Portland, letter from, 183, 424.

Port-wine mark and its obliteration without scar, 673.

Presby, Silas D. Notes on a successful case of extirpation of the uterus, with both ovaries, for fibro-cystic disease, by Gilman Kimball, M. D., 29.

Prevalent diseases, 108.

Proceedings of the Boston Society for Medical Improvement, 532, 706; of the Boston Society for Medical Observation, 18, 170, 228, 470, 617; of the Obstetrical Society of Boston, 196, 596; of the Norfolk District Medical Society, 679, 738, 763; of the Suffolk District Medical Society, 292, 415, 466, 569, 653.

Rectum, foreign body in, 18.

Report for Hampden District, 106.

Report for Suffolk District Medical Society, 13.

Report for Worcester District, 41, 77.

Retinal vessels, pulsation of the, 525.

Retinitis pigmentosa, 228.

Rheumatism, salicylic acid in, 18, 117, 119; acute, with cerebral complications, death, 148.

Ribs, resection of the, in empyema, 414.

Ribs, fracture of the complete unilateral emphysema, delirium tremens, recovery, 87.

Richardson, W. L. Recent progress in obstetrics and gynaecology, 193, 226.

Robinson, S. Q. A case of glandular and splenic leucæmia, 279.

Rush, the late Dr., a letter from, 745.

Salicylic acid in rheumatism, 18, 117, 119; the internal administration of, in diphtheria, 135; and salicin in urine, 176; gangrene of the lung treated with, 506.

Sanborn's method of treatment of fracture of the patella, 402.

Sanitary science, 453.

Scarlatina complicated with typhilitis: fatal on the seventh day, 756.

School children and infection, 680.

Schools, opening of the, 418.

Sclerosis, cerebral, 471.

Serotonin and peripnenum, gangrene and sloughing of, recovery without loss of testicles, 549.

Septicemic following abortion, case of recovery from, 295.

Sex of the fetus and fetal pulse, relation between, 194.

Shoulder-joint, excisions of the, for gun-shot injury, 759.

Skin, plasma tubes of the, 669; skin diseases, relation of to diabetes, 670; the use and value of arsenic in the treatment of, 702.

Skull, the horizontal plane of the, 287; fracture of the base of the, 765.

Skull, fracture of the, 78.

Smith, Stephen. The antiseptic method, 661.

Small-pox in England, 738.

Spalding, Jas. A. Purulent catarrh of the ear, 129.

Spastic tension, change in the numeration of, 432.

Spina bifida, remarks on a case of, 79.

Spinal dislocation, 113.

Spiritism, 561.

Sputum, grass-green, 464.

State society transactions, 203.

Stedman, C. Ellery. Scarlatina complicated with typhilitis: fatal on the seventh day, 756.

Stevens, G. B. Case of foreign body in the air-passages, 463.

Stockwell, C. M. Monstrosity, fetus in fetu, 217.

Stomach, partial resection of the, 731.

Strabismus, 493.

Strasburg, letter from, 481.

Stocklings, the quantity of breast milk consumed by, 136.

Suffolk District Medical Society, report for 1875-76, 13; proceedings of, 292, 415, 496, 559, 563.

Sulphuric acid, aromatic, the use of, in necrosis, 191.

Sun-stroke, the treatment of, 83; cases of recovery, 146; a case of, 252.

Surgery, recent progress in, 728, 759.

Syphysis pubis, case of rupture of, during labor, 4; separation of, during labor, 194.

Syndesmosis scitillans, 555.

Tetanus, idiopathic, 241; treatment of, 560.

Therapeutics, recent progress in, 344.

Thoracostensis, 112; embolism after, 413; sudden death during, 413.

Tibia, typical abscess of head of, trephining, recovery, 86.

Tinea favosa and tinea tonsurans, 700.

Tongue, the vein of the, 290.

Torsion, 559.

Tracheotomy, 272.

Thrombus, red, organization of the, 494; supposed case of puerperal, 587.

Treadwell, Dr., letter from, 212.

Tuberculosis, subcutaneous injection of carbolic acid in, 411.

Tuck, Henry. Case of atresia ani vaginalis, 283.

Tumor, specimens of an orbital, 256; ovarian, 207, 415; fibro-cystic of the breast, 418; muscular of the prostate, 472.

Twins, abnormal condition of cranial bones, 565.

Typho-malarial fever, Professor Estiander's remarks on Dr. Woodward's paper on, 515.

Typhoid fever, 404; transmission of, 404.

Ueber den fließenden Hautkrebs, etc., 674.

Ulcer, gastric, 457; treatment of, 470; of the frenum lingue in whooping-cough, 724.

Umbilical cord, ligation of the, 193.
